Dooq World of Details unveils a new luxury collection

Dooq World of Details is presenting new ranges of luxury home furniture, upholstery and lighting designs. The collection acts as a prelude to dramatic moments in the midst of a serene scenery. It is the realisation of its vision of different cultures and different eras in history.

The creation of each piece evolved from a travel through a country, city, era of history or cultural tradition. This beginning led to the gathering of versatile inspirations thus creating a very unique and polished range of products.

With Dooq World of Details, each luxury piece is tailored to modern living, with a collection intended to suit the needs of good taste and high end aesthetics.

Bonnie & Clyde

Sensual curves and crisp lines embody the perfect combination of beauty and danger, much like the Hollywood legends Bonnie and Clyde. It is impossible to feel estranged with this piece which will attract you and never let go.

La Folie Armchair

With voluptuous curves and perfect poise, La Folie exalts passion and fantasy as if you were in a burlesque show at Moulin Rouge. Let yourself be drawn by this flirtatious feeling of sensuality and a touch as smooth as silk.

Berlin Sideboard

Like its name suggests, Berlin sideboard is inspired by Bauhaus, a wave of thought that is impossible to overlook when passing through the streets of Berlin. In a more down to earth piece, clean lines and a certain absence of excessive ornamentation result in a harmony between design and function.

Souk Mirrors

Created by the perfect combination of color, energy and shape, Souk mirrors reflect the influences of overwhelming and visually fascinating Souk markets in northern Africa with its vibrant fringes and earthy colors resembling typical macrame techniques. These soulful art pieces will make you travel to another time and place and inspire your senses.

About the brand:

Born in Portugal, Dooq is a design company dedicated to celebrate the luxury of living. Creating designs that stimulate the senses, which conceptual approach is inspired on the unexpected meeting of opposites.

Our studio focuses on an extensive research of details together with a vast iconographic research of art and design, creating an everevolving language that emphasizes first of all the small singularities.

We seek to find balance in contrasting concepts, creating pieces where feminine meets masculine, small meets large, soft meets solid and past meets present allowing the new to blossom.

Sensual materials like velvet, rope, straw and glass are combined with robust materials such as copper, marble, brass and wood expressing this duality in our studio's distinctive pieces.

Applying the technological expertise of a country leader in craftsmanship in combination with the creativity of great designers, allows to create objects with an uncensored aesthetic where each piece has its own reason to exist.

Dooq is all about pursuing elegance with audacity and devotion, crossing the boundaries between art and design.
